

**Swine Flu rises fear mongering against humanity
As preparations for
The Trojan horse of Forced Vaccinations
begins!**

Were you, like millions of others, taken by surprise over the bizarre swine flu? Let's face it; this flu seemed to appear out of thin air, threatening life as many of us know it. Raising fears of a **global pandemic** and thus has now been declared as one. Before this strange flu made it in the headlines, a few states such as Ohio and Arizona were already planning mock drills of a **flu pandemic outbreak**. Employees and volunteers were asked to receive vaccinations against a possible pandemic! Under the **FEMA** training exercise held at a mega-church in Ohio, 200 victims were needed for their April 29 mock drill.

"Also be on the lookout for this man, Louis Pasteur. He has attempted to convince the academy that, "the most effective method of preventing disease is through a ludicrous concept called a VACCINE. Whereby... please try to contain your laughter. 'Whereby, a man is INJECTED with a disease in order to PREVENT it!'"-deleted scene from the '04 Walt Disney movie: Around the World in 80 days."

The sudden outbreak of the **swine flu** just happens to be a **bioengineered influenza created in a lab consisting of bird, swine and human strains**. This man-made plague is **man's wrath by manipulation**; it threatens to wipe out 2 billion people (a third of the world's population) according to the CDC...truly, it has begun. Just like all other Trojan horses, the deadly **swine flu** virus will be hidden inside the vaccine, which makes this vaccine far more poisonous and deadlier than the virus itself! Let us not forget a few years ago [in the 1970's] when hundreds of people became very sick after receiving the swine flu vaccine. One lady reported being sick in bed for three months! Many more reported becoming paralyzed. The Center for Disease Control (CDC) is expecting this new flu vaccine to have adverse side effect. After all, that is "just science" according to Michael Hattwick of the CDC.

Top federal health officials are frantically trying to create an unprecedented operation for the upcoming fall flu season, which will consist of injecting Americans with not just one vaccine but a total of three. To further help this plague, some are considering having **swine flu parties** like those chickenpox parties. People are getting these crazy ideas thinking if they catch this round, they will be more protected come this fall. As the Spanish flu first emerged in the spring as a milder form, the winter of 1918 was not the case. This fear will persuade many to receive a number of dangerous vaccines within a short period of time. To depopulate the world, the mad scientists, along with those of the same agenda, are coming up with the **Trojan Horse of Forced Vaccinations**.

On June 12th the WHO announced that the Swine Flu has now become a pandemic. The alert level has now been raised to the highest level, 6. At this level, the Government now has greater control. There are a few ways this forced or mandatory vaccine could unravel.

The Government **could** call for Martial Law in any location nationwide. All who refuse to be vaccinated **could** be forced to go to a FEMA camp, imprisoned with fines and/or not be permitted to enter into cities. If you cannot enter into the city, you may not be able to go to work, purchase anything such as food and water. Your child(ren) would not be able to attend school. Therefore, you could be labeled as an unfit parent. Resulting in your child(ren) being placed in Children's Services. Please consider all this and pray what you and your family should be doing. I find it strange that the very next day after announcing that the swine flu is a pandemic the swine flu vaccine is ready!

A main ingredient found in flu and the swine vaccines is Squalene an adjuvants. Eating and using on the skin squalene is good. However when injected into the body a major war erupts. The immune system will do what it has been program to do, attack it. This then can cause the body to self destruction. According to Gary Matsumoto and Dr. Pam Asa, "Oil adjuvants are the most indidious chemical weapon ever devised."

"A study linking squalene, as experimental vaccine adjuvant, to individuals with the clinical signs of Gulf War syndrome was published in 2002. The published

findings strongly suggest that the squalene contaminated vaccines could be responsible for the Gulf War Syndrome symptoms seen in the study group, and recommended that a large scale epidemiological study be performed to verify or correct this.[3] Despite repeated assurances that the vaccine was safe and necessary, a U.S. Federal Judge ruled that there was good cause to believe it was harmful, and he ordered the Pentagon to stop administering it in October 2004." <http://en.wikipedia.org/wiki/Squalene>-----

The Government is preparing schools across the nation to be used as clinics for mass vaccination. To vaccine millions of children the best place would be school buildings. Even Canadian officials are wanting all five to 40 years to be the first in line to receive the deadly shot.-----

Some cities like Hopewell Township, New Jersey, have had mock drills of mass vaccinations. They have been preparing for a possible virus outbreak. This mock drill consists of volunteers driving through check points then directed to safe zones to receive the mock injection of the deadly vaccine. Ponder the outcome for those who refuse to be vaccinated when this drill is for real!-----

As I reported back in the February/March Newsletter, the bill **HR645-21** has been passed. The bill calls for **FEMA** camps to be planted throughout the United States. **HR645-21** also states, **"To meet other appropriate needs, as determined by the Secretary of Homeland Security."** As previously mentioned these **FEMA** camps will be used for either all those who oppose the **NWO** or those who think these camps are indeed a safe haven. Taking all that into consideration, these camps would be the perfect feeding ground for the mass murder of all those who oppose the **Trojan Horse of Forced Vaccinations**. They could be quarantined against their will. **Or** once the vast population begins to suffer the consequences of being injected with the deadly virus, many may be forced to go to the **FEMA** camps. Only time will tell as to who actually will be there. One matter is certain, Yahuwah the Mighty One of Yisra'el is in control. Let us not forget how Pilate thought he possessed the authority to impale or release Yahushua. The Messiah told Pilate **"You would possess no authority against Me if it were not given you from above."** (John 19:10-11)

If the **swine flu vaccine** doesn't do the job, taking either one of the two common anti-viral drugs known as **Tamiflu** and **Relenza** will sure help in the aide and of the destruction of one's immune system. After vast amounts of the population receive the dangerous and quite deadly series of vaccines; these anti-viral drugs could be administered to the public to help ward off possible side-effects that will arise from the vaccines. Yes, these two drugs are being pushed on the people and may be forced upon the population. Sadly, the truth is Tamiflu is not effective in helping the immune system fight off the symptoms of **bird flu**. Tamiflu is extremely dangerous! The following are just some side-effects that Patricia Doyle posted on rene.com: aches, pain, allergic reactions sometimes leading to shock, asthma, bronchitis, infections of the chest, conjunctivitis, dermatitis, diarrhea, dizziness, ear infections, headache, hepatitis, liver problems, lymphadenopathy, nausea, nose bleed, rash, sinusitis, Steven Johnson syndrome, tiredness, urticaria and vomiting. For those of us who believe in eating a kosher diet Tamiflu also contains gelatin.

The CDC has been shipping stockpile shipments to every state. No state will be left behind as Dr. Richard Besser, acting chief of the Centers for Disease Control, has assured the American people that there will be enough Tamiflu to treat 11 million people if the need arises. Do not think for one minute this potential deadly medication is going to just sit in some warehouses for the next few years. The Swiss pharmaceutical, Roche (Donald Rumsfeld owns stocks) the makers of Tamiflu are getting rich off of this potential life threatening anti-viral drug. They have recently increased the production of Tamiflu. I strongly recommend getting your own Colloidal Silver generator and make as much natural remedy that fights anti virus, anti-fungal and anti-bacteria without all the dangerous side effects of man-made drugs. GlaxoSmithKline has recently also been given the go ahead to increase their production of **Relenza**, an inhalable antiviral drug. Relenza has been known to not only cause strange behavior in adolescents, but has caused some to commit suicide. I beseech you to please take the time out and research these man-made drugs. By doing this now you will be better equipped in knowing what line you might be forced to stand in. These drugs will be used on millions of people that already have suppressed immune systems. Most people's immune system will not be able to handle the deadly potion of three back-to-back vaccines along with the anti-viral drugs. If all this was not enough, **Those who do not receive the vaccine will be blamed!**

matters get worse upon discovering that in reality the **swine flu outbreak** was actually postponed by a few months. In October 2008, Mr. Colin Powell told the world that a crisis was coming around the 21 of January, 2009. We at **F.O.Y.** believed that crisis would come later on in this year or the first quarter of 2010 and we still believe this to be the case. However, the crisis could have very well been this hybrid man-made **swine flu pandemic outbreak**. Bear with me for a moment, earlier this year, Baxter International mailed contaminated vaccines carrying the live **avian flu** [H5H1] and the **human flu** [H3N2] viruses to be administered to humans. One of the lab workers decided to inject some ferrets with the vaccines before using on humans. Astonishingly, all the ferrets died and these vaccines, beloved ones, were meant to be used on humans! As rotten as all that is, Baxter Intl is now working with **WHO** in creating a vaccine for the **swine flu**, despite the ongoing investigation against the company.

Let us Praise Yahuwah for allowing us to have the extra time to prepare! Please draw near unto Yahuwah now. Let the Rauch Ha'Qodesh prepare your mind and body for what lies ahead for humanity! We at **F.O.Y.** strongly believe leaving all populated areas is a good thing together with having some extra food and water along with any other supplies you might need. However, let not our will be done but Yahuwah's will! Some of us could very well find ourselves standing in the line to be taken to the **FEMA** camp! If this be our outcome then may we reach as many of the **"Lost Sheep of Yisra'el"** as we can! Beloved ones pray to be blessed with endurance and perseverance. To learn about how dangerous the 'swine flu' vaccine was back in 1979 please take the time to read this 60 minutes Episode: "Exposed Swine Flu Vaccine Injuries, Lack of Safety:" <http://www.ageofautism.com/2009/04/1141979-60-minutes-episode-exposed-swine-flu-vaccine-injuries-lack-of-safety.html>

Please keep in mind that According to the, **"Model State Emergency Health Powers Act of 2001"** (An act that will be passed during the time of a national emergency). Once the state has declared a public health emergency, under executive orders, special powers will be enforced. The public health authority can exercise people to be vaccinated and quarantine all those who are unable or unwilling for reasons of health, religion, or conscience to undergo treatment. (Section 603, pg. 27). *"Section 604 Isolation and quarantine: Authorization. (a)...This includes individuals or groups who have not been vaccinated, treated, tested, or examined pursuant to Sections 602 and 603. The public*

health authority may also establish and maintain places of isolation and quarantine, and set rules and make orders. Failure to obey these rules, orders, or provisions shall constitute a misdemeanor." (p. 28) www.publichealthlaw.net

According to the "International Swine Flu Conference" brochure we can expect mass fatality, breakdown of public services such as utilities, public panic, disruptions of food and water, a shortage of medical supplies, chaos, mass vaccinations and enforce quarantines. Do not wait for matters to get out of control. Now is the time to stock up on some food and water along with any other supplies you might need. They are expecting minimal delivery of clean water and sanitation services. As you know a person can survive a while without food but water is different.

From the reports that I have been reading there will be a total of **three** vaccine shots, **six weeks** apart (side note: occultic number **666**). Ponder with me beloved ones...**If** these shots are to be administered starting **mid-October**, by years end, things could very well be out of control. Let me explain, the **mad scientist** have conjured up a series of three shots. The **first** shot will totally shut down the body's immune system. The **second** shot then carries the deadly virus to every cell in the body. During this period the victim shows no signs of being ill. However, from what I have read the victim is actually spreading the deadly virus to others. Those who did **not** receive the vaccine could catch the hybrid virus at this time. Let me break this down, the one who receives the second vaccine has no immune system, it has been turned off! Therefore, they will not get sick. **Six weeks** from **mid-October** takes us up to about one week *before* the Thanksgiving! For **six weeks** the victim is a walking time bomb! As many gather during this time of feasting, the turkey and mom's homemade pumpkin pie will not be the only thing shared. As many of these helpless and unknowing victims go out shopping on the biggest shopping day of the year, Black Friday, many could get more than what they bargained for. Oh, it does not stop at Thanksgiving but actually the whole holiday season right up until Christmas! And then... comes the final and destructive blow. **Six weeks** from the second shot, sometime in November would be close to News Years Eve! By the time the ball drops, millions could have received the third and final shot. This shot turns the immune system back on. Thus creating the perfect storm, as the body does what is has been programmed to do; attack the foreign virus. Being over-whelmed will cause the immune system to self destruct. Then **"The Trojan Horse of Forced Vaccinations"** will have become a success!
