

# THE TROJAN HORSE OF RELIGIOUS FREEDOM!

What is this huge massive horse and what does it mean? Let's go back in time to where it all started... The Trojan War.

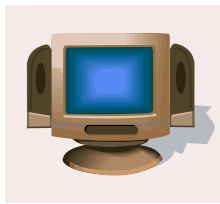

The epic story of the Greek's Trojan Horse, I find it extremely fascinating. The battle between the Greeks and that great city of Troy, lasted a decade, before the Greeks conquered the city. The Trojan War was remarkably won by the Greeks. Indeed, they outwitted their opponent when they made the huge wooden horse.

Thinking this massive idol to be a **token of peace**, and a gift to their deities, the naive Trojans dragged it up the shore bringing it into the city! How excited the Trojans must have been. For ten long years, the city was under siege. Day after day, they endured massive attacks. Finally, the battle was over. Believing they, The Trojans were indeed victorious over the Greeks, massive celebrations of victory and freedom broke out.

As the Trojans **slept**, many men were in a drunken stupor, the wooden horse came to life. The adrenaline filled Greeks, quietly dropped

out of the wooden horse. How thrilled these Greeks must have been. After years of fighting, these few men were the first Greeks to breach the wall. They received a free ride. These first class tickets, took them right into the city.

With hearts pounding, these men signaled for their fellow comrades. They barged into the city. How devastating it must have been for the people of Troy. Many awoke to screams of horror while blood was being shed within the streets. Helpless victims filled with panic ran throughout the city in fear. Soon the city would be desolate. The Greeks having won the victory! All the men were murdered and the women along with the children taken for slaves. Odysseus was one of the main leaders during the Trojan War. His cunning plan still amazes many people.

During this computer age, there is another type of Trojan Horse that attack's computers. There are seven different types of computer destructive Trojan Horses.

The most destructive one is the one that can actually keep record of every single key stroke you make! This information is then stored in a massive computer database.

The Trojan Horse is: "A **destructive** program that **masquerades** as a benign application. Unlike viruses, Trojan horses do not replicate themselves but they can be just as destructive. One of the most insidious types of Trojan horse is a program that claims to rid your computer of viruses but instead introduces viruses onto your computer." ([www.webopedia.com/TERM/T/Trojan\\_horse.html](http://www.webopedia.com/TERM/T/Trojan_horse.html)) Hmm...a devise that makes you think it is good yet in reality it destroys! I am reminded of how the Scriptures tell us there is one that comes to **steal, kill and destroy** (John 10:10).

As cunning as the above are, one succeeds

them all! This **clever deceptive** plan has been around long before the Trojan War and the creation of computers. The success rate of this Trojan Horse is innumerable!

Just as, Laocoon and Cassandra of the Trojans were against bringing the wooden horse into the city, there has always been a remnant of Yahuwah that has exposed the '*Trojan Horse of Religious Freedom.*'

At the turn of the century, true believers of Yahushua Ha Mashiach were persecuted to the fullest! These early believers were a sect with-in the Yahudim community. They were called, Natsarim meaning 'Followers Of the Way!' As hatred grew towards the Yahudim, the Greeks decided to Hellenize everything remotely resembling anything Yahudim (Jewish).

Eventually, these early believers were considered **heretics**. The rise of anti-Semitism left many believers being forced from their homes, villages and called all sorts of foul names. The momentum of this hatred

grew to a scale of **mass genocide**. Believers were fed to lions, burned on stakes, tortured and placed in dungeons. This took place before the Spanish Inquisition, Crusades and yes even before the terror that was unleashed during World War II.

Prior to 312-313 A.D. it was **against man's law** to be a taught one (disciple) of Yahushua, Ha Mashiach. These qodesh ones, saints (Rev. 14:12) would not compromise their faith, even faced with physical death. Their faith was strengthening. They knew not to fear those who could destroy the body but fear Him who has the power to destroy both the body and the being in the Gehenna ([Mat 10:28](#)). History has

and will always repeat itself! Scriptures tells us the following: *"What has been is what shall be, what has been done is what shall be done, and there is no new matter under the sun. (Ecc 1:9)"*

Despite, the persecutions they endured, the congregation grew at an exceptional rate. Converts were being immersed on a daily basis.

To the human eye, this religious war appeared to be having no winner. The more martyrs brought more converts! Even though, Yahushua has overcome this spiritual war battle for us, ha shatan (the devil, serpent, satan) still wants to be worshipped!

Like a knowledgeable general, ha shatan thought up a **plan** so deceptive that the outcry can still be heard today. Any method he could find, he used. Openly or by beguiling even the elect, if it were possible.

Since He could not beat those early believers by suppressing that mustard seed of faith, ha shatan decided to masquerade in the *Trojan Horse of Religious Freedom.*"

Suddenly, through the Emperor Constantine, the Natsarim were free! Finally, it was **not** against the law to be a follower of, "The Way."

Embracing the *'Trojan Horse of Religious Freedom'*, these early believers, did not have to fear for their lives. They could be Followers of Yahushua openly! What a joyful time that must have been. However, something so **sinister** and grand was hiding deep within this **camouflaged** horse!

As the Trojans slept, a great distress emerged from **within the city!** Ha 'shatan quietly hid inside this **false** freedom, waiting for the early believers to fall into a spiritual drunken stupor

state. **Compromise triumphantly** emerged, as the great counterfeit began to rise! Slowly, the true followers of Yahushua were besieged!

This **attack** would last far more than the decade long Trojan War. The consequences can be felt even in our day. As a matter of fact, this war continues today! *"Because we do not wrestle against flesh and blood, but against principalities, against authorities, against the world-rulers of the darkness of this age, against spiritual matters of wickedness in the heavenlies. (Eph 6:12)"*

Believers soon found themselves having to submit to the iron claws of the **Papacy** or be killed. Many fled for their lives.

Soon the early believers received a new name, they were now called, "**Christians.**" If you happen to be a Christian, may I humbly ask you to take some time to **study** the birth of Christianity. Then do a cross-reverence back to the history of Mithraism. This new faith has a form of reference (godliness) but denies the power thereof (2 Tim.3:5).

The *Trojan Horse of Religious Freedom* came with an awful price, **Compromise!** The changing of their name was just the start. Ha shatan gave this **fourth beast** his power, seat and great authority (Rev.13:2). This **beast** did the unthinkable, it **thought** to change Yahuwah's (the Creator) **times** (as in **feast days**) and His **Laws (Torah)** (Daniel 7:25).

There were two ways the Papacy got people into the church. One was by great force. The other was by adopting paganism! Which included the worshipping of the whole host of heaven. Soon, the Yahudim Messiah was transformed into a **Greek** Trinitarian deity. The Messiah's name was changed, to be more acceptable and pleasing to the people. His beloved mother, Miriam became an idol given the title, "**Queen**

**of Heaven"** and "**Mother of God.**" The first early taught ones were given the label '**saint's.**' Pictures of **dead people** were found on the walls. **Praying to and honoring the dead** became common. Soon, **candles**, to invite the host of heaven, were placed throughout the church, believing the services would be more holy. The Ruach Ha Qodesh was suppressed, as the **Pater ruled** each parish/church.

The laity was ruled by the **Nicolaitanes. Graven Images** were set up and **worshipped**, along with the **T Cross** and other relics.

**Rosary's** become popular. Anointing oil was replaced with **holy water**. The practice of paying a loved one out of purgatory known as '**sale of indulgences**' became very popular. The dogma of '**trans-substantiation**' was enforced. The **Pope** was considered the **Messiah on earth** and that **He is infallibility!** Some believe now in **Once Saved Always Saved (OSAS)** and that we all are **little christos**.

The above briefly describes some of the changes instituted by the Papacy and Constantine. One more must be told. During the Creation week, Yahuwah instituted a day of rest, namely the seventh day (Gen. 2:3). But the RCC has thought to change the day of rest from the 7<sup>th</sup> day to the 1<sup>st</sup> day. This decree was first instituted under Constantine in honor of Sol Invitus (the unconquered sun) **under a penalty of death!** This was the first national Sunday law. Do **not** be deceived by this Religious Trojan Horse! The Rams horn has been blown!
